COLONEL DODGE HERE

Arrives From Deaver On An Inspection Tour.

WORK ON HEBER BRANCH

WILL BE TURNED OVER THE 1ST OF NEXT MONTH.

Colonel Dodge Declares the Union
Depot Will Be Built if the People
of Salt Lake City Desire It—All
Required Is the Necessary Franchises—Au Expensive Luxury.

Colonel D. C. Dodge, vice president
and several manager of the Rio Grande
Western, arrived in Sait Lake City
yesterday morning on his private car,

yesterday morning on his private car, accompanied by Dr. F. A. Bancroft, chief surgeon of the road, and G. W. Kramer, superintendent of the express department of the Rio Grande. Colo-nel Dodge left Denver Saturday night

he branch is entirely completed, for here are yet several months' work to e done before it is in perfect shape and condition. We are satisfied with the ork that has been done and the road il mean a great thing for that sec-on of the country."

An Expensive Luxury.

On being asked about the proposed Dodge said: The people of Sait Lake City can have it if they so desire. The Short Line and the Rio Grande Western have decided to build this union depot if they are treated right in the matter of the franchises. I want to say that the two roads don't want the depot. For it will be an expensive luxury. There will not be a dellar in it for us, but we believe that the people of Sait Lake City should be considered in the matter of working for their convenience, so we are willing to erect this dépot if the city does its part. The matter is to be finally decided in New York, but there is much work to be done here, for it will be necessary to assure the capi-

nchises as are required."
clonel Dodge will remain here sevidays before returning to Denver, declares that his trip is purely one the purpose of Inspection.

TO CHANGE PRESIDENTS.

New York, New Haven & Hartford Railroad Has Clashing Interests.

New York, Sept. 18 .- A special to the imes from New Haven, Conn., says: The matter of choosing a successor to President Clark of the New York, New Haven & Hartford road is now in the nands of the standing committee, consisting of President Clark, Vice President John Hall, William Rockefelier, I. Pierpont Morgan of New York; George J. Brush of New Haven, Henry C. Robinson of Hartford, Charles F. Choate of Beston and W. D. Bishop of Bridgeport.

Cornelius Vanderbilt owned upwards of \$1,000,000 of the stock of the road, and the repassing of this great interest into the Vanderbilt family prease, it is said, a closer relation between the Vanderthe vanishment and the vanderbilt system and the New Haven property. However true this may be, it is
certain that interesting developments
are looked to here in the immediate
future by New Haven road stockholders, and sweeping changes in the makeup of the directors would not be a surprise to any one.

It is believed here that the day of
New Empland control of the New

New Engiand control of the New Haven road will pass away with Mr. Clark's retirement, and that that con-trol will pertainly go to New York.

MAKING IMPROVEMENTS.

Short Line Is Putting In Several Switches.

The Short Line is making considerable improvements to its line just at present in the matter of putting in preded sidetracks. Two will shortly be built just this side of the Weber river bridge. One will be 1,500 and the other 750 feet long. The grading upon these two sidelracks is completed and the steel has been about laid. These two tracks are for the accommodation of the cars that are used for the abipment of beets to the Ogden sugar works. The branch or spur line that runs to these works is owned jointly by the Short Line and the Rio Grande Western. The traffic in beets has become so heavy that the tracks were found to be absolutely necessary and hence they are being put in.

A sidetrack eighty-eight feet in length will be built at Hot Springs, north of Ogden, for the purpose of accommodating the cars that are required for the shipment of fruit from this point. Each were this section has not a section has not and the section has not and the section has not a section h built just this side of the Weber river

BANKRUPTCY DECISIONS.

Important Questions Decided By
Judge Marshall Yesterday.

Judge Marshall Yesterday handed down an opinion relative to bankruptcy matters. The opinion had special reference to three questions which had arisen in the case of Alexander I. Wyatt, bankrupt. Mr. Wyatt was adjudged a bankrupt Feb. 1 of this year. On Feb. 15 the county assessor assessed for taxes certain personal property then in his possession. Frank Harris was appointed trustee for Wyatt's estate on Fob. 20. He qualified, took poasession of the property and thereafter disposed of it for the benefit of creditors. The question arose as to whether the laxes assessed should or should not be paid. Judge Marshall's opinion was that property in the hands of a trustee in bankruptey is subject to state taxation to the same extent as property in the hands of a private person. If the taxes had been assessed on or after Feb. 20, while the property was in the hands of a private person. If the taxes had been assessed on or after Feb. 20, while the property was in the hands of the property was in the hands of a private person.
